

## **Main Street Streetscape Update**

June 9, 2009

The Main Street Streetscape project is now in the final design stage

A 25% design public hearing was held on April 30, 2009 to get input from property owners, business owners and citizens at large.

Many comments were received and many changes made. (see the attached minutes of the meeting)

It is expected that the project will go out to bid early summer with construction beginning early fall.

If you have any questions concerning this project please contact  
Coreen V. Moore, Town Planner and Project Manager
