

Department of Public Works
Announces NO Trash and Recycling
Monday February 1. 2021

Good evening everyone!

As most of you are aware, we have a Nor'easter rolling into our area Monday morning and continuing into Tuesday. At first we thought we were off the hook with just wind and rain. Well, this afternoon and evening the forecast has changed. Now we could see up to 6+ inches of heavy wet snow accompanied by 55mph NE winds starting between 8-10am. A change over to rain will not occur, if it does, until 9-10pm.

With that being said, we have made a decision to delay trash and recycling for one day since all staff members that do trash and recycling also participate in snow and ice operations. Trash and recycling pick up for Monday will be Tuesday; holiday schedule if you will. We sincerely apologize for the inconvenience, but public safety takes precedence and we take pride in keeping all of you safe while traveling. We appreciate your understanding and please stay safe during the storm!

Shawn T Patterson
