

Residential customers coming from Falmouth, Mashpee and Sandwich are welcome to our facility, however access will be limited depending on the type of materials you are bringing. We ask that you follow the guidance below as the residential recycling center is primarily for Bourne residents and property owners with stickers and is not equipped to transact business in the same manner as our scale.

All out of town residents will be treated as paying customers that must use our scale, which is closed at noon on Saturdays and all day Sunday, to weigh in and weigh out and pay the appropriate charges. Access for those with household trash shall be limited to the daily hours for Bourne residents, 7:00 AM – 3:00 PM Wed. through Monday; but only until noon on Saturdays and not at all on Sundays (Tuesdays will be available after Memorial Day until Labor Day). If a customer has construction and demolition debris, ISWM can accept those items over the scale until 4 PM during the weekdays and until noon on Saturdays for access to the transfer station area. Please note that small car traffic is not allowed in the landfill so they must use the recycling center. We appreciate your cooperation.
