Re: 176 Scraggy Neck Road, Map 51– Parcel 1, Reply to Horsley letter dated 8-31-22.

Dear Members of the Commission:

This letter is written in response to the August 31, 2022, letter submitted to the Commission by Scott W. Horsley in conjunction with a response letter from Stan Humphries of Environmental Consulting and Restoration, LLC to be submitted separately. Mr. Humphries has addressed comments by Mr. Horsley related to the coastal banks. This letter is intended to address the wastewater comments by Mr. Horsley.

Please refer to the attached Board of Health variance request package dated 8/22/22. Included in this package is my response to a similar letter that Mr. Horsley submitted to the Board of Health which raised the same issues as his 8-31-22 letter.

I also addressed some of these septic related issues on record at the last meeting. As the Commission is aware, the issues regarding the septic system and nitrogen loading calculations will be reviewed in detail with the Board of Health.

Thank you for your time and consideration of this matter. Should you have any questions or require any further information regarding this project please call our office at 508-833-0070 or email the undersigned at don@brackeneng.com.

Sincerely,

Bracken Engineering, Inc.
