Hello jamespotter,

Richard Conron [REDACTED] has sent you a message via your contact form (<https://www.townofbourne.com/users/jamespotter/contact>) at Bourne MA.

Message:

Hi Jim

Thanks for last night's presentations on waste water. What a huge challenge to make the right decision on where the outfall should happen.

As a resident, I appreciate your efforts and the efforts of the other sewer commissioners. As someone said, the commissioners decision could impact the region for 100 years.

I am leaning toward Tom Barlow's proposal to place the outfall pipe as close to the open ocean as possible.

Dick Conron
