Bourne Board of Health,

To whom it may concern, We are emailing in regards to our property at 31 Tahanto Rd in Pocasset Ma. We were granted a variance in September of 2021. It unfortunately has expired.

Due to unforeseen delays in the process of obtaining the demo and building permit, we were told by our site engineer not to move forward with the septic construction until the new house construction is mostly complete. This is due to the likelihood of damaging the new septic system with the weight of the construction equipment. We are asking for an extension on the variance,

Currently we have a building permit . At this time we are ready to start framing the new house. We would be ready for the new septic system by early spring of 2024. If you have any further questions please contact us. Thank you for your consideration in this matter.

Best Regards, William & Ann Murray
