Hi Terri,

Our plan for horse manure: we own a small container company and one of our containers will be designated solely for this and kept on the property, at the other end of the property and as far away from neighbors as possible. We have secured disposal sites and can be done at whatever frequency necessary. Where there are only 2 small horses, we are thinking it won't add up too quickly but are willing to handle in whatever way keeps everyone happy.

Thank you so much! We are making our way back

Julie
