105 CMR 590.011(A) and M.G.L. c. 94, § 305D requires that, restaurants with a seating capacity of 25 seats or greater are required to have one or more employees trained in a manual choke-saving procedure in accordance with 105 CMR 605.000 Approved Choke-Saving Procedures. Each food service establishment with the seating capacity that conforms with M.G.L. c. 94, § 305D shall:

- (a) Have on its premises, while food is being served, an employee trained in manual procedures approved by the Department to remove food lodged in a person's throat; and*
- (b) Make adequate provision for insurance to cover employees trained in rendering such assistance.*
