TO: Licensed Food Establishments & Common Victualler Liquor License Holders in the Town of Bourne
FROM: Terri Guarino, Board of Health Agent
RE: Temporary Seasonal Outdoor Seating Allowances

Acknowledging the current situation due to COVID 19, the Town of Bourne is proposing to allow Food Establishments and Common Victualler License Holders to provide temporary outdoor seating. The Bourne Board of Selectmen will be discussing this matter at their meeting on June 8, 2020. Based on the guidance and directives of Massachusetts Governor Charles Baker and our Town Officials, these establishments must submit an application to the Town and be approved prior to opening up any new or expanded outdoor seating areas during Phase II. Increases to existing overall occupancy and seating capacities will not be permitted at this time. If you already have approved outdoor seating, and do not wish to expand on it, you do not need to follow this application process at this time.

These temporary outdoor seating allowances will remain in effect until Massachusetts reaches Phase IV of the reopening plan, or until such time the Town of Bourne deems appropriate. The future reduction of interior seating will be necessary to provide social distancing and to assure that existing seating capacities and occupancy limits are not exceeded with increases to temporary outdoor seating when indoor seating is allowed.

Applications are available and will be accepted online-only through the following web link:

<https://bournema.viewpointcloud.com/projectTemplate/3/questionnaire>

You will first need to create a ViewPoint account, if you do not already have one. Please help us process your application as efficiently as possible by filling out all required fields, and by submitting detailed plans on how you plan to modify your operation. By creating an account in ViewPoint, you will be notified every step of the way through the review process and be able to communicate with our Town staff who will be working swiftly and diligently to assist you. For any questions or access issues, please contact the Bourne Town Hall at 508-759-0600.

Sincerely,

Terri Guarino

Terri Guarino, RS, CHO
Health Agent

MANDATORY SAFETY STANDARDS

SOCIAL DISTANCING

When indoor table service is permitted, restaurants are encouraged to structure operations to operate as much as possible through outdoor table service and to strictly limit indoor table service in order to assure effective compliance with social distancing requirements and to limit activities within confined spaces

Restaurants must comply with the following sector specific social distancing rules for providing dining services in all customer seating areas:

- Tables must be positioned so to maintain at least a 6 foot distance from all other tables and any high foot traffic areas (e.g., routes to bathrooms, entrances, exits); tables may be positioned closer if separated by protective / non-porous barriers (e.g., structural walls or plexi-glass dividers) not less than 6 feet high installed between tables and high foot traffic areas
- The size of a party seated at a table cannot exceed 6 people
- Restaurants may not seat any customers at the bar, but subject to any applicable building and fire code requirements, bar areas may be re-configured to accommodate table seating that complies with all spacing and other requirements in these COVID-19 safety standards
- All customers must be seated; eat-in service to standing customers (e.g., around bar areas) is prohibited
- Restaurants provide carry-out or delivery service, but all safety standards for table separation, size of party, and hygiene must be maintained for any indoor or outdoor table seating that is available to carry-out patrons
- All other amenities and areas not employed for food and beverage service (e.g., dance floors, pool tables, playgrounds, etc.) must be closed or removed to prevent gathering of customers

Ensure separation of 6 feet or more between all individuals (workers, vendors, and customers) unless this creates a safety hazard due to the nature of the work or the configuration of the workspace:

- Close or reconfigure worker common spaces and high density areas where workers are likely to congregate (e.g., break rooms, eating areas) to allow 6 feet of physical distancing; redesign work stations to ensure physical distancing (e.g., separate tables, stagger workstations on either side of processing lines so workers are not face-to-face, use distance markers to assure spacing including in the kitchen area)
- Establish directional hallways and passageways for foot traffic if possible, to minimize contact (e.g., one-way entrance and exit to the restaurant). Post clearly visible signage regarding these policies
- Prohibit lingering in common areas (e.g., waiting areas, bathrooms) and ensure social distancing in common areas by marking 6 feet spacing with tape or paint on the floor and signage
- All customer-facing workers (e.g., servers, bus staff) must minimize time spent within 6 feet of customers

Designate assigned working areas to workers where possible to limit movement throughout the restaurant and limit contact between workers (e.g., assigning zones to servers)

Stagger work schedules and staff meal and break times, regulating maximum number of people in one place and ensuring at least 6 feet of physical distancing

Minimize the use of confined spaces (e.g., elevators, vehicles) by more than one individual at a time

Require face coverings for all customers and workers at all times, except where an individual is unable to wear a face covering due to medical condition or disability

Recommended best practices

Improve ventilation for enclosed spaces where possible (e.g., open doors and windows)

Customers may remove face coverings while seated at tables

HYGIENE PROTOCOLS

All workers must wash their hands frequently, and table servers must wash their hands or apply hand sanitizer between each table interaction

Ensure access to handwashing facilities on site, including soap and running water, and allow sufficient break time for workers to wash hands frequently; alcohol-based hand sanitizers with at least 60% alcohol may be used as an alternative

Alcohol-based hand sanitizers with at least 60% alcohol should be made available at entrances, exits, and in the dining area

Supply workers at workplace location with adequate cleaning products (e.g., sanitizer, disinfecting wipes)

Post visible signage throughout the site to remind workers and customers of hygiene and safety protocols

Self-serve, unattended buffets, topping bars, drink stations, and other communal serving areas must remain closed

Condiments and similar products (e.g., salt, pepper, and salad dressing) should not be pre-set on tables and should instead only be provided upon request either in single-serving portions (e.g., individual packages or cups) or in serving containers that are sanitized between each use

Menus must be one of the following: 1) paper, single-use menus disposed after each use, 2) displayed menu (e.g., digital, whiteboard, chalkboard), 3) electronic menus viewed on customers' phones / mobile devices

Utensils and place settings must be either single-use or sanitized after each use; utensils should be rolled or packaged. Tables should not be pre-set to reduce opportunity for exposure

Tables and chairs must be cleaned and sanitized thoroughly between each seating

MANDATORY SAFETY STANDARDS

STAFFING & OPERATIONS

When possible, reservations or call ahead seating should be encouraged; managers must ensure that diners waiting for tables do not congregate in common areas or form lines

Restaurants may not provide customers with buzzers or other devices to provide alerts that seating is available or orders are ready; restaurants should instead use no-touch methods such as audio announcements, text messaging, and notices on fixed video screens or blackboards

Provide training to workers on up-to-date safety information and precautions including hygiene and other measures aimed at reducing disease transmission, including:

- Social distancing, hand-washing, and requirement and proper use of face coverings
- Modifying practices for serving in order to minimize time spent within 6 feet of customers
- Self-screening at home, including temperature or symptom checks
- Reinforcing that staff may not come to work if sick
- When to seek medical attention if symptoms become severe
- Which underlying health conditions may make individuals more susceptible to contracting and suffering from a severe case of the virus

Restaurant operators should establish adjusted workplace hours and shifts for workers to minimize contact across workers and reduce congestion at entry points

Limit visitors and vendors on site; shipping and deliveries should be completed in designated areas

Workers should not appear for work if feeling ill

Restaurants must screen workers at each shift by ensuring the following:

- Worker is not experiencing any symptoms such as fever (100.3 and above), cough, shortness of breath, or sore throat;
- Worker has not had 'close contact' with an individual diagnosed with COVID-19. "Close contact" means living in the same household as a person who has tested positive for COVID-19, caring for a person who has tested positive for COVID-19, being within 6 feet of a person who has tested positive for COVID-19 for 15 minutes or more, or coming in direct contact with secretions (e.g., sharing utensils, being coughed on) from a person who has tested positive for COVID-19, while that person was symptomatic
- Worker has not been asked to self-isolate or quarantine by their doctor or a local public health official
- Workers who are sick or feeling ill must be sent home.

Anyone showing signs of illness may be denied entry

If the employer is notified of a positive case at the workplace, the employer should notify the local Board of Health (LBOH) where the workplace is located and work with them to trace likely contacts in the workplace and advise workers to isolate and self-quarantine

Notify workers that they may not work if they test positive for COVID-19 (they should be isolated at home) or are found to be a close contact of someone with COVID-19 (they should be quarantined at home)

Testing of other staff may be recommended consistent with guidance and / or at the request of the LBOH. Post notice to workers and customers of important health information and relevant safety measures as outlined in government guidelines

Post notice to workers and customers of important health information and relevant safety measures as outlined in the Commonwealth's [Mandatory Safety Standards for Workplace](#)

Designate the Person in Charge (105 CMR 590) for each shift to oversee implementation of the guidelines in this document

Restaurants will be allowed to maximize outdoor dining space, including patios and parking lots where available, where municipal approval is obtained

Recommended best practices

When taking reservations and when seating walk-in customers, restaurants should retain a phone number of someone in the party for possible contact tracing

Encourage use of technological solutions where possible to reduce person-to-person interaction (e.g., contactless payment, mobile ordering, text on arrival for seating)

Workers who are particularly high risk to COVID-19 according to the Centers for Disease Control (e.g., due to age or underlying conditions) are encouraged to stay home or arrange an alternate work assignment

Workers are strongly encouraged to self-identify symptoms or any close contact to a known or suspected COVID-19 case to the employer

Encourage workers who test positive for COVID-19 to disclose to the employer for purposes of cleaning / disinfecting and contact tracing

CLEANING & DISINFECTING

Clean commonly touched surfaces in restrooms (e.g., toilet seats, doorknobs, stall handles, sinks, paper towel dispensers, soap dispensers) frequently and in accordance with CDC guidelines

Keep cleaning logs that include date, time, and scope of cleaning

Conduct frequent disinfecting of heavy transit areas and high-touch surfaces (e.g., doorknobs, elevator buttons, staircases)

Implement procedures to increase cleaning / disinfecting in the back-of-house. Avoid all food contact surfaces when using disinfectants. Food contact surfaces must be cleaned and sanitized before use with a sanitizer approved for food contact surfaces. Non-food contact surfaces must be frequently cleaned

In the event of a presumptive or actual positive COVID-19 case of a worker, patron, or vendor, the restaurant must be immediately shut down for 24 hours and then must be cleaned and disinfected in accordance with current CDC guidance before re-opening

SOCIAL DISTANCING

Ensure >6ft between individuals

- When indoor table service is permitted, restaurants are encouraged to structure operations to operate as much as possible through outdoor table service and to strictly limit indoor table service in order to assure effective compliance with social distancing requirements and to limit activities within confined spaces
- Restaurants must comply with the following sector specific social distancing rules for providing dining services in all customer seating areas:
 - Tables must be positioned so to maintain at least a 6 foot distance from all other tables and any high foot traffic areas (e.g., routes to bathrooms, entrances, exits); tables may be positioned closer if separated by protective / non-porous barriers (e.g., structural walls or plexi-glass dividers) not less than 6 feet high installed between tables and high foot traffic areas
 - The size of a party seated at a table cannot exceed 6 people
 - Restaurants may not seat any customers at the bar, but subject to any applicable building and fire code requirements, bar areas may be re-configured to accommodate table seating that complies with all spacing and other requirements in these COVID-19 safety standards
 - All customers must be seated; eat-in service to standing customers (e.g., around bar areas) is prohibited
 - Restaurants provide carry-out or delivery service, but all safety standards for table separation, size of party, and hygiene must be maintained for any indoor or outdoor table seating that is available to carry-out patrons
 - All other amenities and areas not employed for food and beverage service (e.g., dance floors, pool tables, playgrounds, etc.) must be closed or removed to prevent gathering of customers
- Ensure separation of 6 feet or more between all individuals (workers, vendors, and customers) unless this creates a safety hazard due to the nature of the work or the configuration of the workspace:
 - Close or reconfigure worker common spaces and high density areas where workers are likely to congregate (e.g., break rooms, eating areas) to allow 6 feet of physical distancing; redesign work stations to ensure physical distancing (e.g., separate tables, stagger workstations on either side of processing lines so workers are not face-to-face, use distance markers to assure spacing including in the kitchen area)
 - Establish directional hallways and passageways for foot traffic if possible, to minimize contact (e.g., one-way entrance and exit to the restaurant). Post clearly visible signage regarding these policies
 - Prohibit lingering in common areas (e.g., waiting areas, bathrooms) and ensure social distancing in common areas by marking 6 feet spacing with tape or paint on the floor and signage
 - All customer-facing workers (e.g., servers, bus staff) must minimize time spent within 6 feet of customers
- Designate assigned working areas to workers where possible to limit movement throughout the restaurant and limit contact between workers (e.g., assigning zones to servers)
- Stagger work schedules and staff meal and break times, regulating maximum number of people in one place and ensuring at least 6 feet of physical distancing
- Minimize the use of confined spaces (e.g., elevators, vehicles) by more than one individual at a time
- Require face coverings for all customers and workers at all times, except where an individual is unable to wear a face covering due to medical condition or disability
- Improve ventilation for enclosed spaces where possible (e.g., open doors and windows)
- Customers may remove face coverings while seated at tables
-

HYGIENE PROTOCOLS

Apply robust hygiene protocols

- All workers must wash their hands frequently, and table servers must wash their hands or apply hand sanitizer between each table interaction
- Ensure access to handwashing facilities on site, including soap and running water, and allow sufficient break time for workers to wash hands frequently; alcohol-based hand sanitizers with at least 60% alcohol may be used as an alternative
 - Alcohol-based hand sanitizers with at least 60% alcohol should be made available at entrances, exits, and in the dining area
- Supply workers at workplace location with adequate cleaning products (e.g., sanitizer, disinfecting wipes)
- Post visible signage throughout the site to remind workers and customers of hygiene and safety protocols
- Self-serve, unattended buffets, topping bars, drink stations, and other communal serving areas must remain closed
- Condiments and similar products (e.g., salt, pepper, and salad dressing) should not be pre-set on tables and should instead only be provided upon request either in single-serving portions (e.g., individual packages or cups) or in serving containers that are sanitized between each use

HYGIENE PROTOCOLS

Apply robust hygiene protocols

- Menus must be one of the following: 1) paper, single-use menus disposed after each use, 2) displayed menu (e.g., digital, whiteboard, chalkboard), 3) electronic menus viewed on customers' phones / mobile devices
- Utensils and place settings must be either single-use or sanitized after each use; utensils should be rolled or packaged. Tables should not be pre-set to reduce opportunity for exposure
- Tables and chairs must be cleaned and sanitized thoroughly between each seating

STAFFING & OPERATIONS

Include safety procedures in the operations

- When possible, reservations or call ahead seating should be encouraged; managers must ensure that diners waiting for tables do not congregate in common areas or form lines
- Restaurants may not provide customers with buzzers or other devices to provide alerts that seating is available or orders are ready; restaurants should instead use no-touch methods such as audio announcements, text messaging, and notices on fixed video screens or blackboards
- Provide training to workers on up-to-date safety information and precautions including hygiene and other measures aimed at reducing disease transmission, including:

**ALCOHOLIC BEVERAGES CONTROL COMMISSION ADVISORY REGARDING
LOCAL LICENSING AUTHORITIES' APPROVAL OF OUTDOOR SEATING**

On June 1, 2020, Governor Charlie Baker issued an Order Clarifying the Progression of the Commonwealth's Phased Workplace Re-Opening Plan and Authorizing Certain Re-Opening Preparations at Phase II Workplaces, which, in part, details the process for reopening establishments for on-premises consumption. The text of the Governor's Order can be found [HERE](#).

When the Governor declares that the Commonwealth has entered Phase II of its reopening plan all licensees for on-premises consumption of alcohol may commence outdoor table service only. Indoor service will remain prohibited until further order from the Governor.

The Governor's Order also grants the local licensing authorities ("LLA") the authority to expand alcohol licensees' licensed premises for outdoor seating in an expedited process.

Pursuant to the Governor's Order, on application from a licensee that serves alcohol for on-premises consumption¹, the LLA may alter the description of the licensee's licensed premises to expand for outdoor seating that the LLA deems "reasonable and proper." The LLA does not need to comply with M.G.L. c. 138, § 15A, and therefore does not need to provide advance notice to abutters or hold a public hearing on the application. LLAs must continue to follow the ABCC's guidelines issued in 2015 for the approval of outdoor seating, which can be found [HERE](#).

ABCC approval is not required on these applications. Upon approval from the LLA the LLA may issue the amended license forthwith. The LLA must provide notice by mail to the ABCC on all application approvals. For further guidance on the process of approving and issuing these amended licenses LLAs should consult with their counsel.

Please be aware that all expanded premises approved pursuant to this Order are only effective through November 1, 2020, or until the Order is rescinded, whichever is sooner, and revert to their original licensed premises on that date.

The ABCC continues to retain supervision and oversight of all alcohol licensees, including those that expand their licensed premises pursuant to this Order. As always, all licensees must ensure that they comply with the laws of the Commonwealth of Massachusetts, and that sales of

¹ This includes restaurants, bars, hotels, general-on-premises, clubs, war veterans' clubs, continuing care retirement communities, pub-brewers (M.G.L. c. 138, §§ 12 and 19D), farmer-series pouring permits, and manufacturers' pouring permits (M.G.L. c. 138, §§ 19(b), 19B(n), 19C(n), and 19E(o)).

alcoholic beverages take place only as authorized by federal, state, and local law. All questions should be directed to Executive Director Ralph Sacramone at (617) 727-3040 x 731.

**ALCOHOLIC BEVERAGES CONTROL COMMISSION ADVISORY REGARDING
GUIDELINES FOR EXTENSION OF PREMISES TO PATIO AND OUTDOOR AREAS**

On July 28, 2015, at a public meeting, the Alcoholic Beverages Control Commission approved amendments to its "Guidelines for Extension of Premises to Patio and Outdoor Areas." These amended guidelines supersede the previously issued Guidelines from August 22, 1989. A copy of the amended Guidelines are attached to this Advisory.

As a reminder, all licensees must ensure that they are in compliance with the Laws of the Commonwealth of Massachusetts and that sale of alcoholic beverages take place only as authorized by applicable law. Questions concerning this Advisory can be directed to Ralph Sacramone, Executive Director of the Massachusetts Alcoholic Beverages Control Commission at (617) 727-3040 x 731.

**GUIDELINES FOR EXTENSION OF PREMISES TO
PATIO AND OUTDOOR AREAS**

1. Alcoholic beverages cannot be served outside of a licensed establishment unless and until an application to extend the licensed premises has been approved.
2. An application to extend the premises must describe the area in detail, including dimensions, seating capacity, and maximum occupancy.
3. The premises must be enclosed by a fence, rope, or other means to prevent access from a public walkway.
4. The outdoor area must be contiguous to the licensed premises with either (a) a clear view of the area from inside the premises, or, alternatively (b) the licensee may commit to providing management personnel dedicated to the area.
5. The applicant must have a lease or documents for the right to occupy the proposed area.
6. The licensing authorities should consider the type of neighborhood and the potential for noise in the environs.
7. Preferred are outdoor areas where alcohol is served to patrons who are seated at the tables and where food is also available.
