

Town of Bourne  
By-law Prohibiting the  
Use & Production of  
Single-Use Plastic Bags  
Effective January 1, 2018

Dear Business Owners & Managers—

As you all may know, the voters of the Town of Bourne approved the enclosed by-law at the 2016 Special Town Meeting. The new by-law prohibits the distribution and use of single-use plastic bags which are less than 3 mils in thickness by all retail and restaurant establishments in the Town of Bourne. This letter includes important information to help you understand how this change affects your business and how to meet the new requirements which are in force as of January 1, 2018.

Businesses located in our Town play a key role in this important effort to reduce the impacts of plastic, and for that we thank you very much. We understand that the by-law initiative will take some getting used to until new habits are adopted, and we hope to keep in sight the goal of a cleaner environment by promoting the use of re-usable bags.

- Prohibited products: *plastic shopping or carryout bags with handles that are less than 3 mils thick*
- This does not include: *dry cleaning bags, plastic bags for produce or meat, zip lock storage bags, bags used for wet items, newspaper bags, bulk items, and re-usable plastic bags greater than 3 mils*

Please read the enclosed bylaw and visit [www.townofbourne.com/health](http://www.townofbourne.com/health) for more information. Thank you in advance for your understanding and cooperation.

# Bourne Plastic Bag Ban By-law

## Purpose and Intent

The production and use of single-use plastic bags have significant impacts on the marine and land environment of all coastal communities, including, but not limited to: contributing to the potential death of marine and terrestrial animals through ingestion and entanglement; contributing to pollution of the land and coastal environment; clogging our storm drainage systems; creating a burden to our solid waste collection and recycling operations; and requiring the use of millions of barrels of non-renewable, polluting, fossil fuel nationally for their manufacture. Therefore, the Town of Bourne seeks to phase out the use of single-use plastic bags by all retail establishments by **January 1, 2018**.

A plastic bag ban bylaw will provide an environmental benefit and significantly reduce – not increase pollution. This effect is further amplified when a plastic bag ban is paired with a price requirement of paper bags, with the main goal being overall reduction of all single-use bags. The purpose of this bylaw is to phase out the usage of single-use checkout bags by all retail and restaurant establishments in the Town of Bourne.
